Duration	44 mins 7 secs

```
Question 1
Correct
Marked out of 5.00
```

RBI issues all national banks to collect interest on all customer loans.

Create an RBI interface with a variable String parentBank="RBI" and abstract method rateOfInterest().

RBI interface has two more methods default and static method.

```
default void policyNote() {
```

System.out.println("RBI has a new Policy issued in 2023.");

}

static void regulations(){

System.out.println("RBI has updated new regulations on 2024.");

}

Create two subclasses SBI and Karur which implements the RBI interface.

Provide the necessary code for the abstract method in two sub-classes.

## Sample Input/Output:

RBI has a new Policy issued in 2023

RBI has updated new regulations in 2024.

SBI rate of interest: 7.6 per annum.

Karur rate of interest: 7.4 per annum.

#### For example:

Test	Result
1	RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum.

### Answer: (penalty regime: 0 %)

```
1 import java.util.*;
 2 v interface RBI{
 3
        String pb="RBI";
 4
        void roi();
 5 ▼
        default void pn(){
            System.out.println("RBI has a new Poli
 6
 7
 8
        static void r(){
            System.out.println("RBI has updated ne
 9
10
11
12 v class SBI implements RBI{
13
14 ▼
        public void roi(){
            System.out.println("SBI rate of intere
15
16
17
18 v class Karur implements RBI{
19
        Karur(){
20
            System.out.println("RBI has a new Poli
21
            System.out.println("RBI has updated ne
22
        }
23 🔻
        public void roi(){
24
            System.out.println("Karur rate of inte
25
26
   }
27 v public class Main{
28 🔻
        public static void main(String[] args){
```

```
29 | SB1 S=New SB1();

30 | Karur k=new Karur();

31 | S.roi();

33 | k.roi();

34 | }

35 |}
```

	Test	Expected	Got	
~	1	RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum.	RBI has a new Policy issued in 2023 RBI has updated new regulations in 2024. SBI rate of interest: 7.6 per annum. Karur rate of interest: 7.4 per annum.	~

```
Question 2
Correct
Marked out of 5.00
```

create an interface Playable with a method play() that takes no arguments and returns void. Create three classes Football, Volleyball, and Basketball that implement the Playable interface and override the play() method to play the respective sports.

```
interface Playable {
    void play();
}
class Football implements Playable {
    String name;
    public Football(String name){
        this.name=name;
    }
    public void play() {
        System.out.println(name+" is Playing football");
    }
}
```

Similarly, create Volleyball and Basketball classes.

#### Sample output:

```
Sadhvin is Playing football
Sanjay is Playing volleyball
Sruthi is Playing basketball
```

#### For example:

Test	Input	Result
1	Sadhvin Sanjay Sruthi	Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball
2	Vijay Arun Balaji	Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball

Answer: (penalty regime: 0 %)

```
1 import java.util.*;
 2 v interface P{
        void play();
 3
   }
 5 v class F implements P {
 6
        String n;
 7 🔻
        F(String h){
 8
            n=h;
 9
10
        public void play(){
            System.out.println(n+" is Playing foot
11
12
13
14 v class V implements P{
15
        String n;
16 •
        V(String h){
17
            n=h;
18
19 •
        public void play(){
20
            System.out.println(n+" is Playing voll
21
22
23 v class B implements P{
24
        String n;
25
        D/C+ring h) (
```

```
הלאמו דוופ וואל
26
            n=h;
27
28 ▼
        public void play(){
            System.out.println(n+" is Playing bask
29
30
31
32 ▼ public class Main{
33 ▼
        public static void main(String[] args){
34
            Scanner ob=new Scanner(System.in);
35
            String p=ob.nextLine();
36
            String q=ob.nextLine();
37
            String r=ob.nextLine();
38
            F f=new F(p);
            V v=new V(q);
39
40
            B b=new B(r);
41
            f.play();
42
            v.play();
43
            b.play();
44
45
46
        }
47
48 }
```

	Test	Input	Expected	Got	
~	1	Sadhvin Sanjay Sruthi	Sanjay is Playing volleyball	Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball	<b>~</b>
~	2	Vijay Arun Balaji	Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball	Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball	~

Passed all tests! 🗸

```
Question 3
Correct
Marked out of 5.00
```

```
Create interfaces shown below.
```

```
interface Sports {
public void setHomeTeam(String name);
public void setVisitingTeam(String name);
}
interface Football extends Sports {
public void homeTeamScored(int points);
public void visitingTeamScored(int points);}
```

create a class College that implements the Football interface and provides the necessary functionality to the abstract methods.

sample Input:

Rajalakshmi

Saveetha

22

21

Output:

Rajalakshmi 22 scored Saveetha 21 scored Rajalakshmi is the Winner!

#### For example:

Test	Input	Result
1	Rajalakshmi Saveetha 22 21	Rajalakshmi 22 scored Saveetha 21 scored Rajalakshmi is the winner!

# Answer: (penalty regime: 0 %)

Reset answer

```
1 import java.util.Scanner;
    interface Sports {
    public void setHomeTeam(String name);
    public void setVisitingTeam(String name);
 5
 6
    interface Football extends Sports {
    public void homeTeamScored(int points);
9
    public void visitingTeamScored(int points);
10
11
12 v class College implements Football {
        String homeTeam;
13
14
        String visitingTeam;
15
        public void setHomeTeam(String name){
16
17
            homeTeam=name;
18
19
    public void setVisitingTeam(String name){
20 🔻
21
      visitingTeam=name;
22
23 🔻
    public void homeTeamScored(int points){
24
        System.out.println(homeTeam+" "+points+" s
25
26
    public void visitingTeamScored(int points){
```

```
System.out.pr Intin( vISItIng ream-
41
28
29 v public void winningTeam(int p1, int p2){
30 ▼
        if(p1>p2){
